

'No agony, No pain, shall make me cry;

Soldier was I born, Soldier shall I Die.'

Waking up at 5:30 in morning, running for more than 3kms, working out till 8:00, giving lectures at 9:30, practicing military drill from 10:30 to 12:00, doing council work and year planning from 2:00 to 3:00, doing obstacle training and tent pitching from 3:00 to 4:00, attending sports sessions from 4:30 to 6:00 followed by informal bonding sessions at night. This was how a typical day at the NCC Council Training Camp(2019-2020) looked like.

This camp lasted for 14 days in which the council members were rigorously trained and tested on various grounds comprising of both, their physical and mental capabilities. The Cadets would be given ranks on the basis of these tests. Two Excursion trips were also organised to increase the internal bonding of the council.

After this period of severe training and loads of fun, the New Council stands ready and united for the coming year.
