

For all the trekking enthusiasts of our insti (especially first year), NCC IIT Bombay organised a monsoon trek to Kalsubai, the highest peak of Maharashtra on Sunday, 22nd September.

At the height of 5400 feet, Kalsubai houses a vast number of gorgeous sceneries and was the perfect place for a refreshing wild weekend escape for all the cadets right after their grueling midsems.

The trip was open for ALL students of IITB.

Response was amazing and seats were full in no time. (less than 24 hours from announcement)
