

NCC freshmen Orientation was an event organised for freshmen to know more about NCC in IIT Bombay as well as make an informed choice in choosing the NOCS Course for their first year.

Before the orientation, The publicity team worked hard in giving a real shout out for the event by distributing invitation Pamphlets, putting up posters, interacting one to one with freshmen and by putting up relevant posts on Social Media.

As a result, this year there was a huge audience turnout in LT- PCSA for the event.

The event included introduction to NCC in general followed by department wise introductions (Cultural, Sports, Drills) by the respective Heads and Secretaries.

A Dance and a band performance was set up by the council members along with the previous year cadets. Many other interactive activities like pushup challenge, tug of war, guess the movie were also initiated by the hosts.

The magnitude of success of this event cannot be fathomed by the execution of the day but by the relative data of freshmen choosing ncc in nocs for this year vs last year
